HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET MORE ON THE 2016 CAMPAIGN - CLINTON'S HEALTH

Just when you thought the political landscape could be predicted, Clinton's health has created real doubt about her.

I watched Kelly news on Fox TV interviewing Chris Christie.

Christie is a very smart, well spoken, well thought out..

There is little question in my mind that he will be the trigger puller in a Trump administration regarding cannabis.

In my view, Christie is both smarter and more politically savvy than Trump.

It is also apparent that Christie will occupy a powerful and influential position in a Trump Administration.

Christie is on record stating that regarding cannabis, he "will enforce Federal Law".

I've always thought Christie is a very capable man in many ways.

However, he appears not to have a clue about health consciousness.

He eats terribly. His body supports a lack of nutrition knowledge. Physically he looks terrible.

Translated to medical marijuana, a valid segment of the cannabis market, I would think that Christie in his persona life does not have a clue nor can he relate to medical's potential and actual benefits..

What looked like a slam dunk for Clinton 4 weeks ago now looks like a close horse race.

If Trump does win, I would think ultimately he will nix much of cannabis in its many forms.
