## The Cannabis Bear Stock Market

- The 420i Investor Hub noted that the its stock index is down 78%.
- Our 81 company index is larger. It is also down about the same percentage.
- We believe our Index is more revealing because it is divided into three tiers
- Tier 1 is Large Cap Industry Stocks;
- Tier 2 is Medium Cap Industry Stocks;
- Tier 3 is Small Cap Industry Stocks
- We will talk about our analysis in the future.
- Suffice it to say that this marijuana stock market has been crushed.
- What can turn it around?
- I believe that only the rescheduling of the Marijuana from 1 to 2 will re-ignite this stock market
- While strong announcements will help, such as NY and Florida, it will take a major event to return the momentum to this industry group. In the meantime, choose solid companies long term.
