HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET LOOKING AT THE RECENT GALLOP POLL

There are two events I see that can turn around the marijuana stock market.

The First is California's voting in recreational marijuana in 2016.

The Second is a rescheduling from Schedule 1 to Schedule 2. Behind these events is public support.

I was surprised reading the latest Gallop Poll.

The poll showed nationally an increasing percentage of adults, 58% in favor of legalization.

The 18 to 34 group was 71%.

Age group 50 to 64 was 64%.

Age group of 65+ is in the minority at 35%. Perhaps this age group has experienced the effects of marijuana smoking.

The last California poll I saw pointed to a 55% positive vote for legalization. However, if a national 58% has been reported, California's number may have increased.

This would be good news for California recreational and the Nation in general. We will watch these numbers.

Come election in California, there will be a political fight between the pro and anti recreational forces in California.
