HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET

MORE ON GROWLIFE, INC. (PHOT)

On February 25, 2016, Growlife issued the following press release:

"February 24, 2016 09:00 AM Eastern Standard Time

SEATTLE--(BUSINESS WIRE)--GrowLife, Inc. (OTCBB: PHOT), one of the nation's most recognized cultivation service providers, today announced an update on the Company now that its common stock has resumed quotation on the OTC Bulletin Board after receiving clearance from the Financial Industry Regulatory Authority ("FINRA") on its Form 15c2-11.

When the public market was informed that FINRA approved GrowLife's return to trading, on February 17, 2016, shareholders welcomed the stock back with great enthusiasm. Over the next 48 hours the market traded just under 50,000,000 shares, going from \$0.01 to a high of \$0.09, and closed at \$0.06 per share."

This trading resulted in a market value of about \$57 million.

PHOT was the Poster Boy of the entire cannabis industry before the SEC stopped trading in the stock in April of 2014.

Marco Hegyi, CEO wrote an outstanding summary of PHOT's business. I recommend reading it.

Growlife is one of the few cannabis companies that actually knows what the cannabis/marijuana market is all about.

Understanding Growlife is an excellent education in the marijuana industry. Growlife's thousands of products are marketed and targeted to the guts of the industry. Understanding this model will help you understand the cannabis industry.
