HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET THE MARIJUANA STOCK RALLIES

Will wonders never cease?

Out of the blue, the marijuana stock market posted its most impressive rally in 2015

The 420 Benzinga Index reported that its Index rose by close to 9%.

I never saw this one coming.

One thought is that the 2nd initiative in California was recently filed. It might have had a positive market effect.

The paradigm is that Reform C and Control, Regulate and Tax Adult Use of Marijuana Act might be wrapped into one document to define California's direction.

This initiative has been helped by Sean Parker. The URL discussing this issue follows:

Our newsletter has repeatedly said that so goes California, so goes the recreational marijuana industry. We will continue to closely follow California.

What was impressive about this market action is that one would think marijuana stocks would go down between now and year end due to tax loss selling. I don't have the answer of why, if and when. Industry fundamentals have not improved; they have gotten worse in terms of fundamental securities analysis.
