HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET THE MARIJUANA STOCK MARKET CONTINUES ITS DRUBBING

I continue to watch the devastation of the cannabis stock market.

Yesterday it was down this year a bit more than -16%.

Add to that being up about +5% in the first week and we have....

A decline now of about -21% year to date.

And January is not over yet.

This drubbing is something unique.

I have not seen anything like it during my 50 years in Wall Street.

Worse, I do not see it bottoming.

It will continue. How far I do not know, but at this rate it can be down more than 100% this year.

I have mentioned many times that only a change from Schedule 1 to Schedule 2 could turn this market around.

I also have stated that if California votes for recreational in November 2016, that vote alone could turn this market upward.

The reality is that a re-scheduling is not intermediate term.

Neither is a positive vote in California. This market will continue downward at an alarming rate.
