HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET CANNABIS STOCK MARKET AND JEFF SESSIONS

There are certain events that fly over my head. They make no sense to me at all.

The Cannabis Stock market has rallied strongly at year end 2016.

Jeff Sessions is the Darth Vader who will overlook the Cannabis industry. He will be confirmed.

Why would this market power up with the bleak future of the DEA hovering over it? It is a good question to ask.

I don't know all of the answers, but here are some guesses.

This industry is hyped by self serving people looking to cash in the on the Green Rush.

The PR and information from the industry is a cumulative effort to validate the industry. Is it putting lipstick on a pig?

The pig part of the cannabis industry is drug speak being pushed by people whose agenda is to make money, and to validate what is true, half true, and what is also simply not true – avoiding the negatives.

The cannabis stock market is the cumulative expression of this industry's self serving agenda. It has not taken into effect the negatives of the industry. It has not taken into share prices what Sessions and the DEA will do.

Nobody knows what 8 years of a Trump Administration and Jeff Sessions' negative effect will have on this industry.

The truth is that it can only be a substantial negative. Marijuana will be a Schedule 1 drug for a long time...Pot = Drug.

Paul Cohen's Marijuana Hub targets intelligent investing in this market. Sell into this rally.
