Cohen Grassroots Research, Inc. is the Nation's Number #1 Micro Cap and Cannabis Research Firm  
IR Research Reports (1,000+) - Distribution to 100s of thousands of investors

## HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET MORE ON THE POSSIBILITY OF SCHEDULE II

- ▶ We regard the possibility of marijuana becoming a Schedule II drug as the singularly most important issue for the industry and the marijuana stock market.
- ▶ We follow this issue very closely.
- ▶ Last week Rep. Steven Cohen, D-Tennessee with Rep. Donald Young, R-Alaska introduced a bill that would reclassify marijuana as a Schedule II drug
- ▶ The vast majority of Americans, about 86% are in favor medical marijuana. Medical marijuana is here to stay.
- ▶ We at Cohen Grassroots Research are highly favorable of the medical marijuana industry and its many health benefits.
- ▶ We are equally high on the hemp industry. It does not get the press that medical and recreational receive.
- ▶ The effect of such a bill, if passed, would free up states from the feds attacking dispensaries, allowing dispensaries the ability to bank their cash and freedom within the banking system. The bill would give medical doctors at federal agencies the freedom to prescribe medical marijuana while helping research efforts.
- ▶ The bill is currently in the House in Congress. It is similar to the Senate bill introduced by Sens. Kirsten Gillibrand, D-New York, Cory Booker, D-New Jersey, and Rand Paul, R-Kentucky.
- ▶ What is good about this bill is that the idea of Schedule II is being brought front and center to legislators.
- ▶ What is bad about the bill?
- ▶ It has virtually no chance of being passed.
