HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET

MORE ON CANNABIS SCIENCE, INC. CBIS

In our July 17, 2015 newsletter, Alan Brochstein posted the following email on his 420 Investor service: "I posted what seems like yet another worthless press release by CBIS to the Forum. The title alone is enough to suggest that this is one of the lamest companies in the sector pretending to be a real cannabis-focused company:

Cannabis Science, Inc. Initiates the Scientific Validation of the Biological Impact of Cannabinoids in Order to Better Define the Therapeutic Mechanism of Action Using Biochemical, Cell, and Genetic Approaches. CBIS has been burning investors for over six years, yet it has the audacity to say that it has "prepared the blueprint for establishing basic science exploration and explanation for medicinal benefits associated with cannabinoid products." What has it been doing for the past six years???"

World renowned authority, Dr. Robert Melamede, Ph.D, Past President of CBIS, is considered in the cannabis medical science community to be definitive; one of the leading scientific minds and experts in the industry. Dr. Melamede is the retired Chairman of the Biology Department, University of Colorado. Dr. Melamede was past President of CBIS and developed most of the body of science at CBIS. That science today continues to be developed at a rapid pace.

Brochstein has never spoken with Dr. Melamede.

Dr. Dorothy Bray Ph.D, past President of CBIS, is now Head of the Scientific Advisory Board at CBIS. Dr. Bray is one of the leading scientific minds and experts in the cannabis science industry.

Brochstein has never spoken with Dr. Bray.

Anyone trying to understand or comment on this science who has no scientific background or credential cannot understand the depth of this science.

Brochstein has no such scientific educational background. CBIS's science is state of the art.
