HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET MORE ON OAKLAND AND HARBORSIDE HEALTH CENTER

The federal government agreed to drop its four year bid to shut down Oakland's Harborside Health Center.

Harborside is the largest medical marijuana dispensary in the USA.

An article in the San Francisco Chronicle stated that the center has about 100,000 patients.

Estimates are that this is a \$30+ million dollar business. Nobody seems to know for sure.

The Department of Justice has not finalized a sign off on this legal fight that has been going on for some time.

Oakland Councilwoman Rebecca Kaplan has embraced Steve DeAngelo who is the purported head of Harborside.

Harborside is not a medical marijuana center as is advertised. It is really a dispensary catering to recreational pot users under the guise of being medical.

Estimates are that about 90%+ of all revenues at Harborside are purchased for recreational purposes, not medical. Nobody seems to know. All anyone has to do is visit Harborside and see the lines of pot heads. It is big business.

If anyone visits Harborside, its supposed 'patients' are in fact pot heads. DeAngelo is an influential figure in the cannabis movement. Yet he runs a cash cow that identifies itself with medical marijuana. DeAngelo is also a key person in Arc View.

Harborside collects phony medical prescriptions to generate 'medical' pot sales. That is the bottom line. Many industry people do not see DeAngelo as a credible spokesman for the cannabis industry.
