HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET

SANTA FE GOLD, SFEG (\$0.13)

- ▶ Our website is targeted at helping investors make money in the cannabis markets.
- ▶ However, Cohen Grassroots Research, Inc. covers other industry groups as well.
- ▶ Every once in a while we see a micro cap stock that has enormous potential.
- ▶ It does not happen often.
- ▶ We will make an exception in this case with Santa Fe Gold, just to let our readers know there is a company outside of the cannabis industry that we find to be exciting. So, forgive us for the exception.
- ▶ Santa Fe Gold is a gold producing company. It is not a gold exploration company as are most gold stocks.
- ▶ While its business model is to produce, it also continually explores.
- ▶ The Company has discovered one of the largest copper deposits in the USA and intends to work the deposit.
- ▶ The potential numbers translated into revenues are pie in the sky.
- ▶ SFEG has to raise a certain amount of cash to upgrade their gold mine, and to be able to begin pre production activities with the copper deposits.
- ▶ Gold prices are close to all time lows. Copper prices are also very weak. Prices today with both are not deal breakers.
- ▶ However, the gold and copper assets are potentially so large, that it is worthwhile to begin your research on SFEG.
- ▶ No cannabis plants, here, just enormous copper and gold assets, with a good chance of developing both.
