## Marijuana Conferences

- The best places to do your industry and company research is at the marijuana conferences
- This summer I spoke at the Weedstock Conference in Denver
- On September 23, the Greenrush Financial Conference will be held in Seattle, Washington
- Next Gen Metals is hosting the conference. Next Gen is an exciting high margin diversified marijuana company.
- Cohen Grassroots Research Inc. is also writing an in depth IR research on the company
- As you are well aware, Washington became the second state to permit recreational marijuana.
- The conference will be an ideal opportunity to listen to speakers, meet individual companies and learn about what is happening in the recreational marijuana space in Washington.
- I visited 4 dispensaries in Denver
- I plan to do the same in Seattle.
- Do not miss this conference. <http://www.greenrushfinancialconferences.com/s/home.asp>
