THE MARIJUANA BUSINESS CONFERENCE & EXPO: HUGE SUCCESS!

- ▶ The Marijuana Business Conference was outstanding. It was sold out. Congratulations to George Jage, President and his team. This event was primo: A++, very well planned. My personal thanks also to Aimee, Bridgett, Mali and the whole team.
- ▶ I had mentioned to our readers that this conference was a 'must' for anyone interested in the marijuana/cannabis industry. I recommend all of this company's wonderful products.
- ▶ I always learn a lot at these conferences. I spoke at the Weedstock Conference in Denver this summer, but not at this event. I used all of my time to meet as many people as possible.
- ▶ I spent some good time with certain senior executives that I targeted: Mark Merkin at Cann Labs, Cory Hollister and Ellis Smith at American Cannabis Company, Rene David at Abattis Bioceuticals, Clint Pyatt and Eric Dena at Gogreen Technologies, Grant Rollin and Aaron Silverman at Cann Group Inc, Staffan Hillberg and Chris Walker at Heliospectra, Kal Malhi at Cannabix Technologies, Jeff Dayton at The Arcview Group (everyone should sign up for this one), James Farinella at Pazoo, Mike Feinsod at Infinity Capital, Guy Marsala at Medbox and others.
- ▶ I also targeted certain private companies as well: Brad Nattrass and Anthony Casale at Bravo Lighting, Flip Sheridan and Anthony Casale at Cyclaptics...there were many others.
- ▶ What is so exciting in most of these companies is what is coming down the pike. We will be initiating IR Research coverage on certain of these companies in the future.
