## HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET FLORIDA WILL NOT VOTE ON LEGALIZATION UNTIL 2018

The following quote from Marshall Minardi Esq. Chairman, Regulate Florida. National legalization is not a slam dunk.

"At this time, we want to thank all of you who have been working so hard to make this effort a success. Due to time constraints, it has become obvious we will not be able to collect the needed number of verifiable petitions in time to qualify for the 2016 election.

However, it is because of all your hard work and the show of strength of our supporters that it is clear we can pass regulated adult use in Florida. We are happy to announce we are making a few minor changes to the petition language, have some soft commitments for funding, and we will be doing everything we can to make the 2018 ballot. By March, we will have a new petition with minor changes.

The most exciting, important, and biggest hurdle we had this year, should not be an issue moving forward for the 2018 election. When we launch the new petition, it will most likely be with adequate funding to support the campaign from start to successful finish.

None of what has been done has been for naught. All of us have learned how to organize and participate in an effective and successful grassroots effort. It's because of the evidence of strength we caught the attention of some investors who are very interested in helping us to achieve our goals. Additionally, it is the language of our petition that made us stand out from the others, so the changes will be very minor. However, please be kind and recycle any remaining petitions you have so there will be no confusion when we launch the new signature drive. We will keep you all informed as we move along to the campaign to Regulate Marijuana like Alcohol in 2018."
