### HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET

#### INDUSTRY CONCERNS

The road to the cannabis industry being without problems is comprised of many pitfalls.

During this last week, Facebook disallowed cannabis/marijuana inclusion on its platform.

This is a huge negative for the cannabis industry. Facebook is an industry standard.

It does not surprise me. The Founder of Facebook is a high quality human being, dedicated to uplifting the human equation.

Recreational Marijuana in his view does not uplift anything. Medical might.

The hype on Canada is being delayed with serious questions.

It looks to me that this issue will be stonewalled for some time. I do not know what the end game will look like.

If an industry cannot bank its cash, that alone is devastating.

I cannot see much progress in this issue, and I don't see progress in the near or intermediate future.

As the industry unfolds, these three issues are significant.

They point to a very difficult future of legitimacy for the cannabis industry that includes a variety of negative issues.

I would think that forecasted industry growth statistics in the future will be tempered and lowered.
