IR Research Reports (1,000+) - Distribution to 100s of thousands of investors

## HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET MORE THOUGHTS ON THE NATIVE AMERICAN OPPORTUNITY.

The fact that Native American lands may not have to pay state taxes makes this concept disruptive to the grow and dispensary industries outside of native lands.

I see this opportunity as being a potential game changer in an industry that cannot raise cash or create sales and bottom line profits.

There are many unanswered questions that will unfold in the future.

One important question is whether cannabis can be exported from one Native American nation to another.

A second question is; can these nations set up their own banks? Nobody seems to know.

If so, what would the federal regulations be for such banks and credit unions. Again, nobody knows.

Jobs are important on these lands. This industry would add additional badly needed jobs.

The casino business is huge. Its owners have cash to invest if they like the cannabis concept.

The basic cannabis industry has difficulty raising cash.

It might be easier for the Native American opportunity to raise substantial cash.

Very few cannabis companies to date earn bottom line profits. This concept can be highly profitable.
