HOW TO MAKE MONEY IN THE MARIJUANA STOCK MARKET

PAZOO ABOVE 1 CENT

- ▶ Pazoo common stock has been trading at and above the 1 cent area, with significant volume.
- ▶ We can learn a lot about what makes a penny stock.
- ▶ We saw the leverage in Pazoo at \$0.0042 cents and spoke to that in Paul Cohen's Marijuana Hub. Our view was that it would double. It has more than doubled.
- ▶ We also felt that Pazoo would trade in the intermediate time period at its normal level between 2 cents and 3 cents.
- ▶ There are very few stocks of the 278 that we follow that have the potential of rising 7 to 8 times in price.
- ▶ Momentum investors look for high volume coupled with consistent price increases.
- ▶ The Pazoo chart speaks of significant investor interest, support and high volume.
- ▶ Often times, stocks seek different levels and stay there consolidating for a period of time.
- ▶ Pazoo closed at \$0.0106 cents today. Its price action on 20.4 million shares is encouraging.
- ▶ With the Cohen Grassroots Marijuana Index down about -27% YTD, picking out a double in this market is good stuff.
- ▶ Clearly it is no sure bet that PZOO will not re-trace to the \$0.0075 cent level. It has done that before.
- ▶ But this action post the announcement of paying off \$400 million of converts tells a different story than pre this announcement. It looks like a new base might be laid.
- ▶ Pazoo unlike many marijuana stocks has performed on its business model and its capital structure. The future is good.
